begin, on the third of May, to issue a weekly edition, having for its principle aim the promotion of Revenue examination at this place on the Reform, which has become the paramount issue in national politics.

There was a class of 12 pupils examined. The most of the district were present mount issue in national politics. The existence of an actual surplus in the Treasury estimated to reach \$140,000,000 on the 30th of June, 1888, and the further increase there of under present laws, are a menace to all business interests, and a direct incentive to wastefulness and corruption in the appropriations of public money. The attention of the people having been strongly drawn to this subject by the President in his last annual message, the need of information and popular enlightenment on questions of revenue and taxation has been increasingly felt in all parts of the country.

It is the intention of the management to make a first-class weekly newspapers of 12 pupils examined. The most of the district were present and assisted in the work of the examination.
